

# Razor blades have never been this secure

Keeping theft-sensitive products behind glass or service counters makes them less accessible to genuine shoppers and tends to discourage impulse buying.

Gillette Fusion Safer for razor blades is a tailor-made solution from Checkpoint, to help you sell more and lose less.

## Product Highlights

- Developed to match Gillette Fusion razor blades precisely
- Smallest possible size, allows for attractive merchandising
- Integrated EAS security tag for maximum product visibility
- 1 safer for both on-shelf and peg hook display
- Fits into Gillette EuroBox pusher tray and any Checkpoint pusher solution
- Opened with Checkpoint detacher as well as other current models

GILLETTE FUSION SAFER

**Checkpoint** 

Approved by  
Procter & Gamble in  
several European  
countries

Checkpoint's Gillette Fusion safer offers reliable protection for theft-sensitive razor blades, while being easy to handle and fast to remove.

Allowing for an attractive merchandising display, this specialist safer supports carefree open display of Gillette Fusion consumables.

### Discreet and flexible

The safer features the smallest possible dimensions and an integrated EAS security element, thus offering discreet size and security.

As for display flexibility, you only need one safer type for on-shelf and peg hook display. The safer matches Gillette's Eurobox and any Checkpoint pusher solution and allows for easy handling. It can be opened with a Checkpoint detacher and other current models as well.

### Specifications:

Material:	high-end quality polycarbonate, transparent
Dimensions:	102mm x 135mm x 31mm
EAS security:	all current EAS technologies available, discreetly integrated into safer
